Senator Ben Nelson
720 Hart Senate Office Bldg.
Washington, DC 20510

Dear Senator Nelson,

The Child Advocacy Center will be locating to a new building in the University Place neighborhood. This has been a long time effort for them. They have outgrown their space in Antelope Park. The Child Advocacy Center has attended the University Place Community Organization Annual Meetings for several years helping to tell their story and help the neighbors understand the importance of their organization.

The neighborhood organization has endorsed the building of this facility at the east end of University Place Park. UPCO, (University Place Community Organization) has played a key role in facilitating discussion with the neighbors.

Senator, for me it has been a long journey watching this organization being formed, operate and grow and then needing more room. I remember when the Police Chief, Sheriff and others kept expressing the need for such a facility. I was on Lincoln City Council at the time. Then the location of surplus property in Antelope Park seemed to be the answer for a location. And then, sadly, there was the need for more room and more space for interviews.

This will be a great location for the Child Advocacy Center. I do hope you can help them on some of the funding needs.

Sincerely,

Coleen J. Seng
