Education Commission of the States
Midwestern Higher Education Commission

January 19, 2010

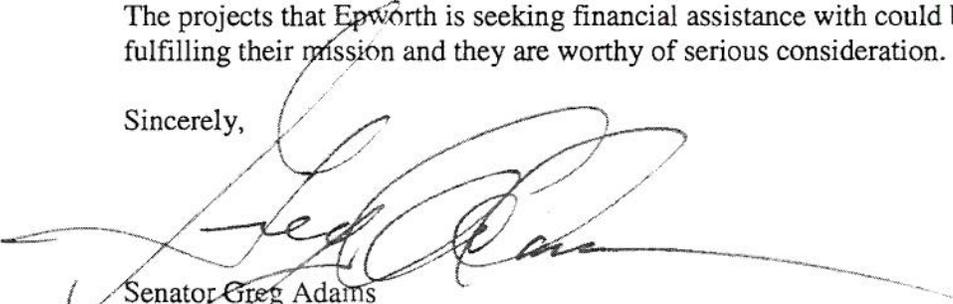

To Whom It May Concern:

I am writing this letter in support of four projects that Epworth Village in York, Nebraska would like to initiate. The projects involve building renovation and upgrade, physician training, and a school based licensed mental health practitioner program.

Throughout the many years of its existence in York, Epworth Village has had a mission of providing care for children in need. Over time as the needs of children have changed Epworth has been responsive and adjusted their programming. In last several years Epworth has been very proactive in assisting children, their families, Nebraska school districts, and the state by providing important support services.

The projects that Epworth is seeking financial assistance with could be very beneficial to fulfilling their mission and they are worthy of serious consideration.

Sincerely,

Senator Greg Adams
District 24
